

REMARKS

Applicants acknowledge receipt of the first Office Action of DEC. 16, 2008 and request reconsideration of the application as amended.

In response to the requirement for a new drawing sheet, Applicants submit a new FIG. 7 for the Examiner's consideration. Support is found in the wording of original PCT claims 1 through 5. Applicants propose to insert, into the specification, a two-paragraph description of the new FIG. 7. Care has been taken to avoid "new matter."

In accordance with the indication, on page 3 of the first Office Action, that claims 34, 37-53 and 56-58 would be allowable if rewritten in independent form, the claims have been amended in the manner helpfully suggested by the Examiner. Specifically, claim 53 has been combined into claim 5, and the features of original claim 5 have been recited in the newly-independent claims 34, 37, 39, 42, 47, 54, and 56.

Method claims 59-62 were indicated to allowed as filed, but a minor correction, changing "cooling" to "cooled," has been made in claim 59. If the Office detects any remaining informalities, or wishes to make any suggestion to place the application in condition for allowance, kindly contact the undersigned.

Respectfully submitted,

/Milton Oliver/
